**NOTICE OF DRAINAGE PROJECTS IN YOUR AREA
SERPENTINE WAY**

Al R. Roshdieh
Director

August 28, 2016

Dear Resident:

This letter is to inform you of an emergency storm drain pipe replacement project in your area. The project is being managed by the Montgomery County Department of Transportation (MCDOT). Due to a depression in the roadway, MCDOT conducted an inspection and found the existing corrugated metal pipe, located under the roadway depression, was in need of replacement.

The failed pipe will be replaced with a new, large-scale pipe. The repairs require the closure of a small section of Serpentine Way. Weather pending, the project is expected to take **two (2)** months to complete. Road closure and detour signs, as well as other construction related activities, can be expected in the area. Randolph Road and Fairland Road will remain open and are not impacted by any construction activities. Please follow the posted detours.

Given the sensitive nature of the nearby watershed, this project has been approved by the Maryland Department of the Environment (MDE). Additionally, MCDOT has coordinated with the appropriate utilities regarding the roadway condition and any necessary work relating to this project.

As you may know, this section of roadway has already been closed. MCDOT will make every effort to expedite the work to facilitate an accelerated completion with the least amount of inconvenience to nearby residents. Should you have any questions or comments feel free to contact Mr. Josh Faust, Public Outreach Manager, at 240-777-7642 (josh.faust@montgomerycountymd.gov) or Mr. John Birton, Construction Supervisor, at 240-777-77616 (john.birton@montgomerycountymd.gov).

We thank you in advance for your cooperation and apologize for any inconvenience this project may cause.

Sincerely,

Randy Paugh
Chief of Pavement Management
MCDOT
